SUMMARY

Front End Engineer with 4+ years of experience building scalable and high-performance web and mobile applications using React, Next.js, and React Native. Experienced in developing real-time systems, kiosk-based POS applications, and browser-based computer vision solutions using TensorFlow.js. Strong focus on user-centric design, performance optimization, and delivering reliable front-end architectures for production environments.

EXPERIENCE

Freelance Front End Developer

PT. Integritas Solusi Indonesia (INSOL)

04/2025 - 08/2025

SECaS POS

- Developed a Next.js-based POS kiosk system for museum ticketing with dual-screen (cashier & customer) setup.
- Implemented real-time screen synchronization using the Broadcast Channel API.
- Integrated QR-code ticket generation and thermal printer for automated ticket issuance.
- Optimized the application for secure kiosk-mode operation.

SECaS Lalala

- Built a web-based facial registration platform using Next.js and TensorFlow.js (BlazeFace).
- Implemented real-time face detection and posture validation to prevent invalid or low-quality captures.
- Supported bulk face registration via Excel upload with automated validation.
- Ensured high accuracy and performance for large-scale event usage.

Front End Developer

PT Indonesia Payment Incorporated

09/2020 - 12/2024

Developed robust software solutions, web dashboards, and scalable front-end architectures; optimized code for performance, created React Native apps for device integration, implemented secure interactive SPAs with React/Redux, and collaborated on refining software design for enhanced functionality and usability.

- Utilized Web Development skills and Front-End Frameworks such as React JS and Next JS to build scalable applications.
- Create mobile applications that can connect to external devices such as bar code scanners and Bluetooth printers using React Native
- Create web-based dashboards for data visualization with responsive and user-friendly interfaces.
- Create a secure, interactive web application with a modern front-end framework and an intuitive user interface

Computer Lab Assistant

Universitas Indraprasta PGRI (UNINDRA)

06/2019 - 10/2020

Maintained laboratory inventory (hardware/software), supervised laboratory activities, and assisted with laboratory activities, and other faculty/university activities.

Apprenticeship IT Support Technician

PT PLN (Persero)

01/2015 - 05/2015

Checking and ensuring that all computers used by users can be used, checking and ensuring that all computers are connected to the network, Repairing damaged user computers, and Creating or assembling network and data cables.
